

**ISO NWI Ballot Results**  
**for**

**Conformance testing methodology and framework: Abstract test methods for SDAI implementations**

The following lists the results of ISO Form 5, question 5, from the New Work Item ballot for 10303 "Conformance testing methodology and framework: Abstract test methods for SDAI implementations." Question 5 states "We would agree with direct submission of the draft accompanying the proposal as a CD (yes or no) DIS (yes or no)."

<b>COUNTRY</b>	<b>CD</b>	<b>DIS</b>
Australia	NO	NO
Belgium		
Brazil		
Canada		
China	YES	
France	YES	NO
Germany	NO	NO
Hungary	YES	NO
Italy	YES	YES
Japan	NO	NO
Korea, Republic of		
Netherlands		
Norway	NO	NO
Romania	YES	NO
Russia	YES	NO
Sweden		
Switzerland	NO	NO
United Kingdom	NO	NO
United States	NO	NO

As a result of this ballot, 10303-35 has been forwarded back to the working group and project team for continued drafting. When all appropriate actions have been completed, it will undergo its first Committee Draft ballot for a four month balloting cycle.

**ISO NWI Proposal:**  
**Conformance testing methodology and framework: Abstract test methods for SDAI Implementations**

### **UK Comments:**

- Q2 - "Agree with Scope" - NO. Make the following changes
- o third bullet: Clarify that ATCs are 'specific to the SDAI'; otherwise, this duplicates other 30-series parts;
  - o Purpose, bullet(a): The difference between the two applications is not clear;
  - o Purpose, bullet(b): Change 'compliant' to 'conforming'.
- 

## **UNITED STATES**
